## Camp Invention Returns

FCA will be hosting Camp Invention for a fourth year the week of **June 18th!** In the **Optibot™** module, campers will launch into the future with their own Optibot – a small self-driving bot that senses changes in light. Campers will design tracks for their bots to follow while exploring different modes of transportation. They will explore impact sensors using a small-scale crash test dummy and discover how sensors are used in vehicles. And they will personalize their own line tracing robot to take home!
