To learn more, visit [campinvention.org](http://campinvention.org) or email Stacey Rauch at [srauch@fcaknights.us](mailto:srauch@fcaknights.us).

### FCA Open Houses

Please note the Open House dates on the left. FCA administrative staff will be there to provide a tour and answer questions. Interested families may visit the FCA website under Prospective Families to register for any Open House or Shadow Day!

### High School Meetings

The scheduling meeting for students presently in 8th-11th grades will be taking place **Tuesday, February 4th** at 6:00 in the Worship Center. This meeting is strongly recommended for students who will be 9th graders next year, but is open to all high school parents and students. Please note that the College Credit Plus (CCP) meeting for those secondary students interested in taking college classes will be taking place on **Tuesday, February 11th**.

### K-4 Fine Arts Night

Students in kindergarten through fourth grade will be presenting the mini-musical, Let's Pass It On!, Thursday, **February 13th** at 7:00 pm. Please join us in the Worship Center to hear students promote "positive feelings that in turn make the world a happier place". Student artwork will also be on display! Please see your email from Mrs. Coyan for more details.

### Knights' Night Out

It's planning time for our fabulous Knights' Night Out School Carnival! This annual indoor carnival will be taking place on **Friday, March 6th** from 6:00 pm - 9:30 pm. Help will be needed in concessions, game rooms and prize room. Email Heather Keener at [hkeener@fcaknights.us](mailto:hkeener@fcaknights.us) if you'd like to help and be on the lookout for a detailed email from Heather in the near future!

### Camp Invention: Flight Lab

Children will explore the principles of flight with the help of their very own robots. Innovation takes off as children engage in hands-on, high-flying challenges and inspiring experiments. They will discover flight concepts using paper planes, gliders, rockets, heliballs and hand-copters. They will design and build a cityscape using upcycled materials. Children will also tap into their natural curiosity as they control and take apart a flight simulation robot.
